

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	31 January 2026
Team ID	LTVIP2026TMIDS61983
Project Name	I Revolution_A Data-driven Exploration of Apple's iPhone Impact in India using tableau
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

The screenshot shows a web-based template for a brainstorming session. On the left, there is a vertical sidebar with the identifier "LTVIP2025TMIDS735". The main area has a light gray background. At the top left, there is a circular icon containing a lightbulb and a speech bubble, with wavy lines below it. To the right of this icon, the text "Brainstorm & idea prioritization" is displayed, followed by "IREVOLUTION" and a horizontal line. On the far right, there is a vertical sidebar with a teal header and footer. The central workspace contains several sections:

- Step 1: Define your problem statement**: A section with a blue circular icon containing the number 1. It includes instructions: "What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.", a timer icon indicating "5 minutes", and a box labeled "PROBLEMS" with the placeholder "How might we [your problem statement]?".
- Example Problem Statement**: A teal box containing the text: "How might we help Apple and stakeholders explore iPhone sales, features, and market performance in India more effectively using interactive dashboards and storytelling?".
- Key rules of brainstorming**: A section with a blue circular icon containing a brain. It lists six rules with corresponding icons:
 - Stay in topic.
 - Encourage wild ideas.
 - Defer judgment.
 - Listen to others.
 - Go for volume.
 - If possible, be visual.
- Bottom Left Sidebar**: A black sidebar with a white rounded rectangle containing a grid of small colored squares (yellow, green, blue) and a "Need some inspiration?" section with a link to an example.

Step-2: Brainstorm, Idea Listing and Grouping

2 Brainstorm
Write down any ideas that come to mind that address your problem statement.
10 minutes

State-wise Create an interactive map showing iPhone sales state-wise in India.

Build story dashboards explaining Apple's quarterly growth.

Visualize price vs. battery type preferences among Indian consumers.

Add toggle to view premium models only (iPhone 13+, 14 Pro).

Highlight pricing trends across flagship launches.

Use Tableau parameters to simulate different market scenarios.

Include competitor comparison (Xiaomi vs Apple vs Samsung).

3 Group ideas
Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and break it up into smaller sub-groups.
